DETAILED ACTION

Allowable Subject Matter

Claims 1-4 and 6-12 allowed.

The following is an examiner's statement of reasons for allowance: The newly amended claims call for "control means for setting the amount of the shift based on a distance over which the printing medium is transported after the scan, a flag indicating status of use provided for each area of said print buffer, and an extent of the printing elements used for printing in next scan wherein the data shifting means is controlled based on the amount of the shift set by the control means." The prior art of record shows various inventions dealing with data shifting and printing, but does not explicitly disclose the above amendment in combination with the other claimed limitations of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
